Surfaces defining modern expressions

100%
PURE
AKRILIK

Excluzio Decor have made their mark in the market. And we are one of India's largest distributors of decorative surfaces and wall panelling. Our regional branches are responsive to needs at local levels. We are more than 100 percent dedicated to distribution and providing the best network nationwide. Our team best copes with the dynamics of industry, delivering products just in time. Looking forward to have you as one of our client family members.

ABOUT WARRANTY

Excluzio Akrilik sheets is the best option when it comes to installation. During installation and post it, there are some issues that the clients face, which are majorly as below:

1. Sheet bending • 2. Sheet color fading • 3. Less hardness of sheets • 4. Sheet tolerance • 5. The defects of sheet

Aiming for the sheet bending, sheet color fading, not enough hard sheet, sheet tolerance and sheet defect, Excluzio Akrilik will solve the problem case by case.

We assure a warranty for Excluzio sheets that they will show no visible yellowing for 30 years. We guarantee that our sheets will retain their fire behavior even after 30 years of weathering.

CARE OF LAMINATES

- Use a particular plastic cleaner or mild soap and water to remove dirt and debris.
- When applying cleaner, use a non-abrasive lint-free or microfiber cloth.
- For tough grease, oil, or tar residue, use commercial grade hexane or kerosene.
- All solutions need to be wiped clean with fresh water and blotted dry to reduce and prevent water spotting.
- When cleaning akrilik sheeting, never use ammonia, acetone, carbon tetrachloride, or gasoline as a cleaning solution.
- Don't store akrilik in direct sunlight in hot conditions.
- Avoid storing akrilik in extreme temperatures, above 100-degree Fahrenheit or 30 degree Celsius.
- Use a plastic polish, car polish, or automobile wax with a clean, microfiber cloth to repair the cracks.

MERGE WITH EDGES

Edge bending and sustainability

To achieve a smooth sleek look, shiny and reflective surfaces like akrilik sheets are the solution. The gloss edging and bandings with Excluzio protects orange peeling of the edges.

- Gloss level > 96 gloss points
- Incomparable surface calm (no orange peel)
- Monolithic look between board and edge.
- Wide range of colors combined with trending high gloss akrilik sheets.
- Akrik edge- banding made with same colour foil of akrilik sheets.

APPLICATIONS

Hotel

Restaurant

Healthcare

Kitchen

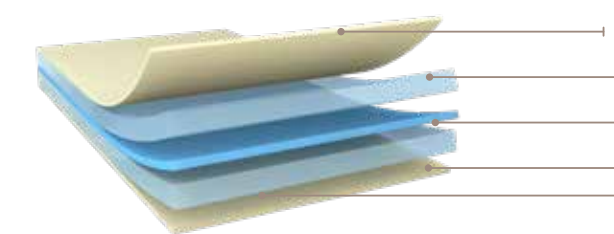

Bathroom

Furniture

WHAT'S INSIDE

6H anti-scratch Coating
Akrikil Layer
Glue line
PVC Based Film Layer
Primer coating

Excluzio Akrikil is not responsible for any damage, cracks, bubbles or colour fading if the sheets are not checked when delivered and are not properly applied as instructed above.

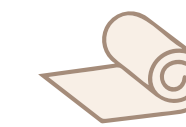

WIPE THE SURFACE CLEAN USING A LIGHT CIRCULAR MOTION

SHAKE IT WELL AND LIGHTLY SPRAY ON THE SURFACE

EASY FILM REMOVAL IN 6 OR 7 DAYS OF APPLICATION

IMMEDIATE OPENING OF THE ROLL WITHOUT PRESSURIZING IS MUST

USE MILD CLEANERS FOR AN EVERLASTING SHINE.

REASONS FOR AIR BUBBLE FORMATION ON LAMINATES

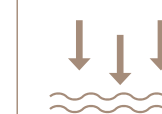

High temperature and humid conditions are created to bond the sheets

Use of water base synthetic resin adhesive or any other the PEVA (Polyethylene Vinyl Acetate Co-polymer) is used.

When substrate loses moisture after installation

Uneven surface can cause debonding and bubbles

Insufficient pressure during the bonding will look like this

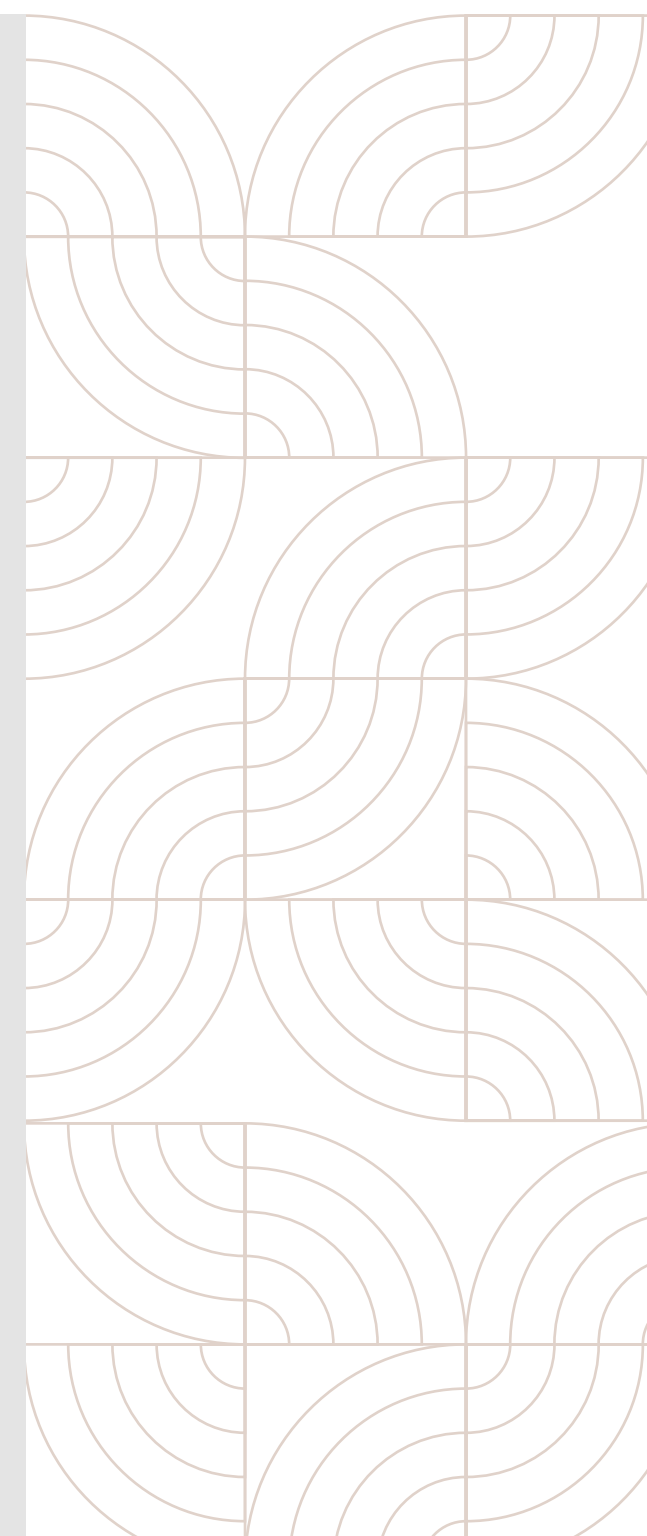

Use of extremely large akrilik/ PVC laminate sheets (more than 8 ft x 2 ft long)

Available Size : 2440mm X 1220mm (8ft X 4ft) • Thickness : 1.5 mm
